STATE DEMOCRATIC PLATFORM

Platform adopted by the Oklahoma
state democratic convention:

We the representatives of the democratic party of the state of Oklahoma in appealing to the citizenship of our state for their support, do respectfully submit these principles of self government, for which we stand and which are of special interest to the campaign.

Local Issues

We believe we should have the right of local self-government immediately without denial, delay or evasion.

We believe the people of Oklahoma should and will condemn at the polls the efforts of those who are trying to defeat statehood for our people.

We submit to the people of Oklahoma the best state constitution that has ever been written, and in asking the suffrage of the patriotic citizenship of this state, we firmly stand upon this constitution in its entirety as our platform.

In this splendid organic law we have carried out in perfect good faith every pledge made by us to the people of the state. We have made a constitution that takes the most advanced ground of any organic law in existence; which not only protects the right to life, liberty and the pursuit of happiness of the citizens, but a constitution for the protection of the property of the people against the stealthy hand of ingenious modern monopoly.

School Lands

We believe that as soon as possible and practicable the lands held by the state for educational purposes should be sold upon terms that shall be absolutely fair to the people of this state preserving the preference right to the lessees, guaranteed by the enabling act and to the end that such lands should become taxable and made more valuable and productive by the actual owner thereof.

We believe that the funds derived from the sale of such land should be fully preserved and invested as provided in the constitution.

We believe that the present state schools should be maintained and that other necessary state schools and institutions should be established equitably throughout the state.

Coal and Asphalt Lands

We favor the purchase of the segregated coal and asphalt lands at a fair price to be agreed upon by the state authorities and the Choctaw and Chickasaw governments, subject to the approval by a vote of the people of this state, before the contract of purchase shall become effective.

We favor the fullest development of such lands in the interest of the schools and charitable institutions and the product of cheap fuel for the people of the state.

We favor the immediate sale of the surface of such segregated coal and asphalt lands in small tracts to actual settlers.

We strongly oppose the passing of the timber land and other natural resources of this state into the hands of the great monopolies.

Removal of Restrictions

We believe the people of this sovereign state should have the full measure of liberty enjoyed by the citizens of other sovereign states.

We believe that the various federal bureaus established in this state should be immediately terminated and that the basis of this bureau government, the restrictions on the sale and lease of land of our citizens, should be removed summarily, except as to homesteads of full-bloods; and we favor the immediate settlement of all tribal affairs and the immediate distribution of all tribal funds.

We believe that the estates of those mentally incompetent of whatever race, should be protected by our state probate courts. We will take care of our own defectives of whatever race or color, and will not rely upon the federal government to discharge this proper function of our own state.

Invested Capital

We believe that it is of the greatest importance to the development of our new state to give perfect safety and assurance to invested capital, and that where complete security is afforded capital will gladly seek investment at the lowest rates of interest.

We draw a broad line of distinction between capital invested in honest enterprises and predatory capital engaged in conspiracy against the proceeds of labor of the American people. We oppose the crafty corporations which artfully contrive to destroy competition and thus fix arbitrary prices on the necessities of life, and on those things which are produced by our own people. We do not intend to encourage predatory capital in this state. We do intend to protect our people in the proceeds of their honest labor. We favor especial care of the protection in the rights and interests of the laboring people, such as the tradesmen and women and children of this state.

Natural Resources

We favor the steady development of all our natural resources and especially of our oil and gas regions.

We favor the development of every form of manufacture for which our natural resources so well qualify the state.

We pledge the passage of a road law that will enable the people in each county to provide themselves a good system of roads.

Schools

We recommend the education of the people as absolutely essential to the development of this state, and to the continuance of supremacy of the democratic party. We pledge the party to vigorously promote in every reasonable way our public school system, so that this state shall stand in the front rank in the educational column.

Economy

We pledge the people of this state an economical and faithful administration of its affairs, and that the state taxes shall be as low as possible for the conduct of a state government properly administered.

Separate Coaches

We approve the resolution of the constitutional convention of March 1 1907, pledging the enactment of a law at the earliest possible date during the first session of the first legislature providing for separate coaches or accommodations and waiting rooms for the negro race.

Prohibition

The question of prohibition has been removed from partisan politics and has been left to a vote of the people in accordance with the principle of the referendum.

Fulfillment of Pledges

In the constitution which we submit we call attention to the important fact that we have faithfully carried out every pledge made the people in the last campaign. We unreservedly endorse the action of the democratic majority in its faithful compliance in drawing the constitution in accordance with our pledges to the people and we pledge that the democratic party, if now entrusted with power in the administration of the state government, will faithfully enforce, execute and carry into effect every principle of said constitution as adopted by the people and a strict enforcement of every law enacted by the legislature of this state.

National Issues

We hereby express our allegiance to the great principles of government advocated by the national democratic party, upon which we believe the future welfare of this republic must depend.

We reaffirm our allegiance to that greatest living exponent of democratic principles, William Jennings Bryan, and endorse him for our presidential nominee in 1908.

We emphatically demand the reasonable and proper control of transportation and transmission companies and the supervision and control of all enterprises engaged in inter-state commerce.

We favor the improvement of the waterways of the Missouri valley and the establishment of water transportation wherever practical throughout the Union.

We believe that the patriotic elements of the republican party are no longer able to control or influence that great political organism. We believe that the machinery of the party has fallen under the insidious influence of the great plutocratic power and organized monopolies of this nation.

We denounce and condemn the national republican party for the lavish use of moneys belonging to the people of Oklahoma in the reclamation service in other states, and pledge our members in our national congress to use their best efforts to require the reclamation service to use the money belonging to Oklahoma in Oklahoma.

We believe that the vast contributions of money by these special interests have given such interests such power over the republican party that a remedy for national conditions under which the people suffer is impossible through that party.

We appeal therefore to every good citizen who places patriotism above commercialism, happiness and the welfare of the great body of our producing class above the enrichment of the few; and who believes in local self-government, to join us in a holy crusade for the restoration of the people to their rights.

We enjoin upon the advocates of democracy that they treat with special respect those of our fellow citizens who by environment, affiliation or by other reasons have heretofore affiliated with other parties, and we urge them to use only sound argument in appealing to their reason and to use the force of courtesy and kindness in persuading them to join us in the great task of restoring to the American people their rights to the pursuits of happiness.

If a burn or a bruise afflicts you rub it on, rub it on.
Then before you scarcely know it all the trouble will be gone.

REAL ESTATE SALE

In the United States Court, Southern District of Indian Territory, at Chickasha.

In the matter of the
Elmer Johnson estate.

NOTICE

To all whom it may concern:—
Notice is hereby given that I, the undersigned, Lester L. Price, administrator of the estate of Elmer Johnson, deceased, will on the 11th day of September, 1907, apply to the U. S. Court, Southern District of Indian Territory at Chickasha, for authority to sell the following described real estate, to-wit:

Lots 6, 7, 8, and 9, block 264, City of Chickasha, Indian Territory. It being the intention to sell said real estate for the purpose of paying the debts of said Elmer Johnson, deceased.

All persons interested will take notice and govern themselves accordingly.

LESTER L. PRICE

Administrator of the estate of Elmer Johnson

A. L. Herr, atty. for administrator.
